

Which network server providers in Vietnam are the best

AI Overview

Top reliable network server providers in Vietnam include VinaHost, Viettel IDC, VNG Cloud, VietHosting, and OVHCloud, offering high uptime, modern infrastructure, and local support.

Key Considerations for Choosing a Provider

When selecting a server provider in Vietnam, consider the following factors:

- Data Center Quality:** Prefer Tier 3 or higher international standards for stability and security.
- Uptime Guarantee:** Look for providers offering at least 99.9% SLA.
- Technical Support:** Ensure 24/7 support with fast response times.
- Hardware and Network:** Check for enterprise-grade CPUs, SSDs, RAID configurations, and high-speed fiber connectivity.
- Local Presence:** Servers in Hanoi, Ho Chi Minh City, or Da Nang reduce latency for domestic users.

Recommended Providers

- 1. VinaHost** One of the oldest and most reputable providers in Vietnam. Offers dedicated and virtual servers in Viettel, VNPT, and CMC data centers. Supports IPv4/IPv6, unlimited traffic on 100 Mbps channels, and a wide range of Intel Xeon servers. Suitable for hosting applications, streaming, file storage, and resource-intensive tasks.
- 2. Viettel IDC** Subsidiary of Viettel Group with over 15 years of experience. Operates 10 modern data centers meeting Tier III standards. Provides robust infrastructure, high security, and strategic locations for low-latency access. Serves enterprises of all sizes, both domestic and international.
- 3. VNG Cloud** Part of VNG Corporation, a leading tech conglomerate in Vietnam. Three Tier 3 data centers in Hanoi, Ho Chi Minh City, and Da Nang. Offers vServer, Virtual Private Cloud, Cloud Firewall, Load Balancing, and Auto Scaling. Reliable and scalable for businesses of all sizes.
- 4. VietHosting** Focuses on enterprise and resource-intensive projects. Offers dedicated servers with 14-56 physical threads, up to 256 GB RAM, and SSD arrays. Provides domestic (100 Mbps) and international (32 Mbps) connecti...
